

Orthopaedic Research Society

OPEN DOOR

Establishing pathways to orthopaedic science

ORS Open Door is a **STEM outreach program** led by some of the **top researchers** in the field of orthopaedic research. Activities are aimed at communicating key aspects of **musculoskeletal science** to the general public.

*Past audiences have included **middle school students** who are choosing their educational trajectory, **high school students** who are considering college and future career plans, and **university students**.*

ORS OPEN DOOR 2024 WILL TAKE PLACE IN LONG BEACH, CALIFORNIA

Friday, February 2, 2024

Get students excited about the possibility of future careers in the musculoskeletal sciences, introducing them to a wide variety of professional pathways and work performed by our ORS members.

Interested in Supporting or Assisting with ORS Open Door 2024? Contact Meghan McGee-Lawrence at mmcgeelawrence@augusta.edu by August 31.
