

Orthobiologics for Meniscal Repair: Friend or Foe?

Evidence vs. Voodoo

Time	Topic <i>Presenter</i>
1:15 pm – 3:15 pm	<p>The 2025 ORS Meniscus Section scientific meeting will revolve around the use of orthobiologics in meniscus repair. Specifically, we will have a debate for and against the motion that repair should be augmented with orthobiologics, as well as a speaker covering the next age of adjuvants. Finally, the section meeting will also include time for networking, poster teasers, and our business meeting.</p> <p>Speakers: Orthobiologics for Meniscus Repair: For the Motion <i>Henning Madry, Universität des Saarlandes</i></p> <p>Orthobiologics for Meniscus Repair <i>Amy McNulty, Duke University</i></p> <p>The New Age of Orthobiologics for Tissue Repair <i>Allison Bean, University of Pittsburgh</i></p>
