Expand Epidemiological Research

You have an opportunity to advocate for expanded epidemiological research at National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS). In particular, the NIH is seeking input to shape a new epidemiology agenda for arthritis, musculoskeletal, and skin diseases. Share your perspective on what study designs will best define contemporary prevalence, incidence, natural history, treatment patterns, social determinants, and health disparities; how data-science approaches could fill gaps; and which specific conditions or populations urgently need rigorous epidemiologic work. Your thoughtful feedback can steer funding priorities, promote studies that include underserved and special populations, and accelerate translation of findings into public-health and clinical practice. **Be sure to make your voice heard before November 7.**

ORS Career Development Webinar: Navigating Industry Relationships

This Wednesday - October 22, 2025

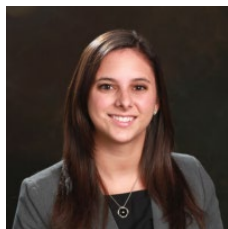

12:00 PM - 1:00 PM Central

Academic and industry partnerships can be highly fruitful and can lead to new scientific developments. This webinar will provide guidance for academic researchers on how to forge meaningful and productive industry relationships. Orthopaedic researchers of all stages, including early career, mid-career, and established investigators are encouraged to attend.

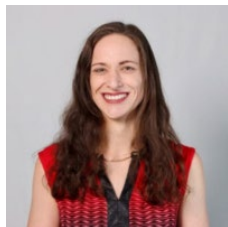

Speakers:

Anthony Khoury, PhD
Sr. Scientific Specialist
Arthrex

Alexandra Valentino, MBA
Manager, Clinical Research
Stryker Joint Replacement

Mackenzie Hagan, PhD

Applications Scientist

KUBTEC Scientific

Organized by:

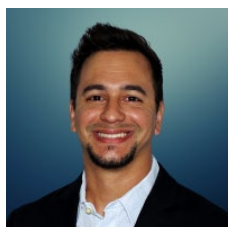

Sarah B. Floyd, PhD, MPH

Assistant Professor, Department of Public Health Sciences

College of Behavioral, Social and Health Sciences

Faculty Scholar, Clemson University School of Health Research

Clemson University

Miguel A. Diaz, MS

Biomechanics Research

Foundation for Orthopaedic Research and Education (FORE)

Bo Gao, PhD, MBA, RAC

Director of Engineering & Development

Exactech, Inc.

Biostatistics Webinar on Novel Methods in Musculoskeletal Research

Wednesday, October 29, 2025

12:00 PM - 1:30 PM Central

Rigorous application of biostatistics in reliable clinical research ensures that conclusions drawn are valid, reproducible, and useful for improving care in orthopaedics. Xiaoxiao Sun, PhD, Associate Professor, University of Arizona, and Joel Gagnier, MSc, PhD, Associate Professor, Western University Canada will present on applied biostatistics in orthopaedic studies. They will lead a discussion on propensity score analyses in clinical research and statistical and machine learning approaches for modeling longitudinal multimodal data.

Beyond the Bench: Translating Skeletal Muscle Research with Large Animal Models

Wednesday, November 5, 2025

12:00 PM - 1:00 PM Central

This webinar will discuss the complexities and challenges associated with using various animal models for skeletal muscle research. Leading experts in the field will provide best practices for designing translational studies, leveraging the strengths of different models, developing new tools and techniques for large animal research, and addressing the limitations that arise when bridging the gap between small and large animal research.

Organized by:

The ORS Preclinical Models Research Section and the ORS Skeletal Muscle Research Section

Animal Models of Aging 101: Insights, Limits, and Future Directions

November 12, 2025

12:00 PM - 1:00 PM Central

This webinar will address the challenges of using aging animal models in musculoskeletal research, with the goal of building greater consensus and clarity in the field. We will provide perspectives on knee and spine osteoarthritis, review key literature, discuss how variability in age selection complicates cross-study comparisons, and showcase recent work on senescence and intervertebral disc degeneration. Attendees will learn about the challenges and opportunities that can guide more consistent and impactful study design in preclinical animal models of musculoskeletal research.

The Call for Late-Breaking Abstracts is Open for the ORS 2026 Annual Meeting

The call for late-breaking abstracts is open for the ORS 2026 Annual Meeting. The Annual Meeting will take place March 27-31 in Charlotte, NC, and will bring together attendees of all career levels and disciplines to connect and explore the latest innovations in orthopaedics. The theme for the meeting ties in with the enthusiastic racing community in Charlotte - "Driving Research to Fuel Discovery." Don't miss your opportunity to help us shape the

content of our organization's most important event. Submit your late-breaking abstract today. **Submissions are due November 10.**

[Submit Your Late-Breaking Abstract](#)

The call for proposals is open for the ***Industry Innovations in MSK Health Session*** which will take place at the ORS 2026 Annual Meeting. Following its successful launch at the 2025 Annual Meeting, this lunch-and-learn educational session will highlight specific technical advancements introduced to the market within the past two years by the orthopaedic industry. We are currently accepting proposals from all industry participants. (This is a separate call for proposals, which will be received and reviewed separately from our general Annual Meeting call for abstracts.) Each accepted proposal will be allocated 10 minutes to present during the session. **Submissions are due November 17.**

[Submit Your Proposal for Industry Innovations](#)

Award Opportunities

The following awards are now open for submissions. Keep an eye on this space in future issues of *ORS Connect*, as we will be updating the opportunities regularly. Please note that all submissions are due at 11:59 PM Central on each listed due date.

Now Open - [The ORS International Section of Fracture Repair \(ISFR\) Lifetime Achievement Award](#) honors a cutting-edge researcher and/or clinician scientist in the areas

of fracture repair, bone regeneration, bone biology, or trauma. **Submissions are due January 12.**

Now Open - [The ORS International Section of Fracture Repair \(ISFR\) Interdisciplinary Academic Exchange Grant](#) provides \$5,000 for an ORS ISFR member to visit a research lab to collaborate and exchange knowledge in fracture repair and/or bone regeneration research. **Submissions are due January 12.**

The ORS Meniscus Section proudly presents the inaugural [ORS Meniscus Momentum Award](#) to honor a mid-career investigator who has demonstrated impactful research contributions to the meniscus field, as well as excellence in collaboration, mentorship, innovation, and service to the ORS Meniscus Section. **Submissions are due November 10.**

[The ORS Implant Section Travel Scholarship](#) provides up to \$2,000 in support for student attendance at the ORS 2026 Annual Meeting. This award is intended to help offset travel costs for students presenting research relevant to orthopaedic implants. **Submissions are due November 19.**

[ON Foundation/ORS Education Grants](#) provide \$500 to highly motivated and talented early career investigators to attend the ORS 2026 Annual Meeting, March 27-31, in Charlotte, NC. **Submissions are due November 28.**

[The Dr. Peter Roughley Award](#), from the ORS Spine Research Section, provides \$2,000 to support travel for a mentor and trainee team researching spine, disc, and cartilage biology. The award is named in honor of the late Peter Roughley, PhD for his contributions to proteoglycan research and its role in disc and cartilage structure and function. **Submissions are due December 15.**

[The ON Foundation/ORS Orthoregeneration Award](#) provides \$1,000 to a young investigator based on outstanding tissue regeneration research that has been accepted for presentation at the ORS 2026 Annual Meeting. **Submissions are due January 10.**

[Read About All Awards](#)

**Local Outreach and Networking:
This Wed in Aurora, CO and Online**

The ORS Ambassadors promote our organization and musculoskeletal research by hosting and attending various networking events throughout the world. ***The 7th Annual D'Ambrosia Orthopedic Symposium will take place this Wednesday, October 22, 9:00 AM - 7:00 PM Mountain Time at the University of Colorado Anschutz Medical Campus, 1890 N. Revere Ct., Aurora, CO. The program will also be available online via Zoom. The event will include pre-and post-doctoral trainee presentations, two poster sessions, keynote lecture, and awards. The hosts are Michael David, PhD - Associate Chair, ORS Ambassadors, and Honey Hendesi, PhD - ORS Ambassador. Registration for the event is required and a virtual attendance option is available.***

Spine Section

STRATEGIES IN
CLINICAL RESEARCH

TENDON SECTION

The call for 2026 Member Nominations for Section Leadership is now open. Each ORS Section has various leadership positions available. This is a great opportunity for Members to get involved and assist in achieving their Section's initiatives. If you are a Section Member and you are interested in nominating yourself or a colleague for a role, please click the button below to fill out the form. If you have more than one nomination, please fill out a form for each. [CLICK HERE](#) for position descriptions. Positions are open to ORS Section Members in good standing.

Positions Available* Include:

- Chair-Elect
- Communications Chair
- Membership Chair
- Secretary
- Treasurer
- Education Chair
- Member-at-Large
- JOR Spine Liaison

**Please note that not all positions are available for all Sections. See the nomination form for details.*

Nominations are due October 29, 11:59 PM Central.

[Submit Your Nomination](#)

This form is for the nomination of Section Leaders by Section Members. If you are interested in joining a Section, please [CLICK HERE](#).

This Thurs - Maximize Your Science Communication Skills

American Institute for Medical and Biological Engineering (AIMBE) invites you to their *Virtual SciComm & Engagement Workshop*. The workshop will take place **this Thursday, October 23 at 1:00 PM Central**, and will be led by Karl Leif Bates, Science Journalist and Former Executive Director of Research Communications. This introductory science session will provide an overview of essential science communication skills, with a focus on common challenges, and effective strategies. Participants will gain a practical understanding of how to apply these skills across various public engagement avenues, including commentary writing (e.g., Op-Eds), media interviews, short videos for social media, and more.

Registration is Open for the PSRS Symposium

Philadelphia Spine Research Society (PSRS) Symposium

Friday, November 7, 2025 | University of Delaware, Newark, DE

The 2025 Philadelphia Spine Research Society (PSRS) Symposium will be held on Friday, November 7, 2025, at the University of Delaware, FinTech Innovation Hub in Newark, DE. This year marks the 20th anniversary of the Philadelphia Spine Research Society's founding. The program will include keynote talks from clinicians, research leaders, scientists, and students. The meeting will cover all areas of spine research, from basic to clinical, and encompass the broad areas of development, pathophysiology, aging, pain, diagnostics, and therapeutics. Registration for the event is open now.

Article Submissions for JOR Special Issue

The *Journal of Orthopaedic Research (JOR)* has an open call for a special issue:

Tendon from Mechanism to Therapy – Emerging Technologies and Therapeutic Outcomes

This special issue will build on the ORS Tendon Conference 2024 Mechanism to Therapy – Emerging Technologies and Therapeutic Outcomes hosted by Mayo Clinic on May 30-June 1, 2024. The issue will contain perspectives, reviews, and original research papers that developed around the Tendon Conference and recent Tendon Section areas of interest. This issue will serve as a valuable resource for researchers, trainees, and investigators new to tendon research, while also fostering collaborations between experts in the field. The guest editors for this issue will be Anne Gingery, PhD (Mayo Clinic) and Karin Grävare Silbernagel, PT, ATC, PhD, FAPTA (University of Delaware). **The deadline for submissions is December 31, 2025.**

You can submit your article for the special issue via the link below. Be sure to answer “yes” to the question, “Is this submission for a special issue?” Then select "Tendon from Mechanism to Therapy" from the drop-down menu.

[Submit Your Article](#)

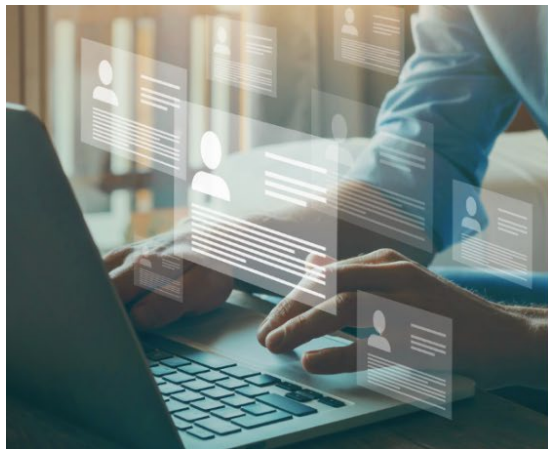

ORS Sweaters Available

This beautiful, blue, cozy 1/4 zip ORS sweater is now available. Perfect for cool evenings, the sweater is also a great way to share your support for the organization and your enthusiasm for musculoskeletal research. You can order your own sweater now via the link below.
