Help Shape NIH Policy on Returning Research Results to Participants

Feedback due by
October 26, 2026.

[Submit Here](#)

One of the most direct ways to advocate for science is to provide feedback on policies that affect how research is conducted and communicated. The National Institutes of Health is currently seeking public comment on its draft policy, [Sharing Summary Level Study Results with Clinical Research Participants](#), which would establish expectations for how NIH-funded researchers share study findings with participants after a study is completed. Because clinical research participants make scientific discovery possible, ensuring they receive understandable summaries of study outcomes can strengthen transparency, trust, and engagement in the research process. By reviewing the draft policy and submitting feedback, researchers can help shape a practical and effective approach to participant communication while influencing the future of biomedical research. We encourage you to take just 15 minutes this week to review the proposal and share your perspective.

Your Voice Matters!

Voting for the ORS Board of Directors is now open. Help shape the future of the Orthopaedic Research Society by electing leaders who will guide our community and advance musculoskeletal research.

2027 ANNUAL MEETING

February 19–23, 2027
San Francisco, California

SUPPORTING THE
FRAMEWORK OF INNOVATION

Industry Innovations in MSK Health

Building on the success of the past two years, we are pleased to continue the Industry Innovations in MSK Health Session at the [2027 ORS Annual Meeting](#). This educational session provides a unique opportunity for orthopaedic industry partners to highlight emerging technologies and technical advancements that have been introduced to the market within the past two years. We invite proposals from all industry participants for this dedicated session. Submissions will be reviewed separately from the general Annual Meeting abstract submission process. Presentations will be selected with the goal of highlighting a diverse range of technologies, innovations, and industry perspectives. **Proposals due Monday, November 2, 2026.**

[Late Breaking Abstract Submissions](#)

You can still be a participant in the ORS 2027 Annual Meeting! The ORS Scientific Program Committee invites you to submit a Late Breaking abstract. Use your ORS username and password to login. If you do not have an ORS username, you will have an opportunity to create one. **Submissions are due on Monday, November 9, 2026 at 11:59 PM Pacific Time.**

ORS PSRS 8th International Spine Research Symposium

November 1 - 5, 2026 | Skytop, PA

The Philadelphia Spine Research Society (PSRS) and the Orthopaedic Research Society (ORS) invite you to the ORS PSRS 8th International Spine Research Symposium. Since 2011, this biennial event has brought together leading researchers, clinicians, and industry professionals from around the world. Past symposia have been highly successful, earning enthusiastic praise and positive feedback from participants. [View the agenda.](#)

Registration is Open!

Solaris Symposium - Stem Cell Science and Regenerative Medicine

This event brings together leading researchers, bioengineers, and clinician-scientists to explore the latest advances in stem cell biology, regenerative medicine, genomics, and emerging technologies. Held in Hong Kong on January 14-17, 2027, the meeting aims to foster collaboration and accelerate discoveries that advance human health.

Clinician Scholar Career Development Program Recap

The [Clinician Scholar Career Development Program \(CSCDP\)](#) recently took place in Rosemont, IL. This annual workshop hosted 52 participants made up of orthopaedic residents, surgeons in fellowships, and junior faculty who are pursuing the path of clinician scholars. This talented group of

participants worked alongside leading faculty members for a series of lectures, small group breakout discussions, networking meals, and panel discussions. CSCDP participants are selected through a highly competitive application process. Keep an eye on [ORS Connect](#) for information about applying for the 2027 Program. Thank you to all the specialty and institutional sponsors who make the participants' attendance possible.
